COMPANY PROFILE

ONE GROUP, MANY SOLUTIONS. POWERING YOUR FUTURE.

2026

ABOUT US — PILAR POWER GROUP

Pilar Power Group (PPG) is a corporate group building an integrated solutions ecosystem across the sectors of Technology, Infrastructure, Trading, and General Business Services. Supported by various legal entities and business brands, PPG delivers a wide range of solutions—spanning technology and infrastructure to business services—within a single ecosystem.

Through PT Pilar Teknologi Solusi and PT Power Infra Solusindo, PPG has developed a service portfolio that encompasses IT Infrastructure, Managed Services, Cloud & Data Center, Cybersecurity, Network & Connectivity, CCTV & Access Control, Software Development, Audio Visual, Procurement, Power & Electrical, Mechanical & Plumbing, Interior, Property, Construction, Manpower, and General Supply.

Guided by the concept of "One Group, Many Solutions," PPG integrates diverse expertise and business brands to provide efficient, scalable, professional, and end-to-end solutions tailored to customer needs.

We go beyond merely providing products and services; we build long-term business relationships grounded in service quality, reliability, innovation, and a deep understanding of each client's requirements.

OUR VISION

To Become a Trusted Integrated B2B Solutions Ecosystem in Indonesia
Pilar Power Group aims to become one of Indonesia's leading B2B corporate groups and brand ecosystems, providing professional, integrated, and customer-oriented solutions across technology, infrastructure, engineering, procurement, and business support.

OUR MISSION

To achieve this vision, Pilar Power Group is committed to the following key missions:

1. Deliver Integrated Solutions
Providing a comprehensive range of products and services to meet customer needs, from consultation and procurement to implementation, installation, and maintenance.

2. Prioritize Quality
Selecting products, technologies, materials, and business partners that meet project requirements and comply with applicable quality and industry standards.

3. Develop Professional Talent
Building a team of competent, responsive, and highly skilled professionals with technical expertise in their respective fields.

4. Enhance Customer Experience
Delivering a seamless, transparent, and responsive customer experience throughout the communication, consultation, procurement, installation, and support processes.

5. Support Digital Transformation
Helping companies and organizations improve operational efficiency through digital technologies, cloud solutions, cybersecurity, automation, networking, and information systems.

6. Build Long-Term Partnerships
Going beyond transactional relationships by building sustainable, long-term partnerships with customers, principals, vendors, distributors, system integrators, and professional partners.

PILAR POWER Group

CORE VALUES

Professional

We perform our work to the highest professional standards and take full responsibility for every project we undertake.

Integrity

We prioritize honesty, transparency, and commitment in every aspect of our business.

Solution Oriented

We focus on understanding our customers' challenges and delivering the right solutions to meet their needs.

Customer First

Customer needs and satisfaction are among our top priorities in every project and business engagement.

Innovation

We continuously embrace the latest relevant technologies and innovative solutions to support evolving business needs.

Collaboration

We believe that large-scale projects require strong collaboration among customers, teams, vendors, principals, and business partners.

Continuous Improvement

We continuously evaluate, develop, and improve our processes and services to deliver better quality and greater value to our customers.

PILAR POWER Group

Why PIPO Group ?

We deliver end-to-end solutions through an integrated ecosystem to support your business success.

Multiple Solutions in One Ecosystem

Customers can access a wide range of needs through specialized brands within the ecosystem.

B2B Focus

Solutions are specifically designed for corporate and project requirements.

Integrated Solutions

Products and services can be seamlessly integrated into a single project.

Technical Expertise

Each domain applies a technical approach tailored to specific requirements.

Procurement Support

Assisting customers from product selection and procurement through to implementation.

Scalable Solutions

Solutions can be customized to align with business scale and customer needs.

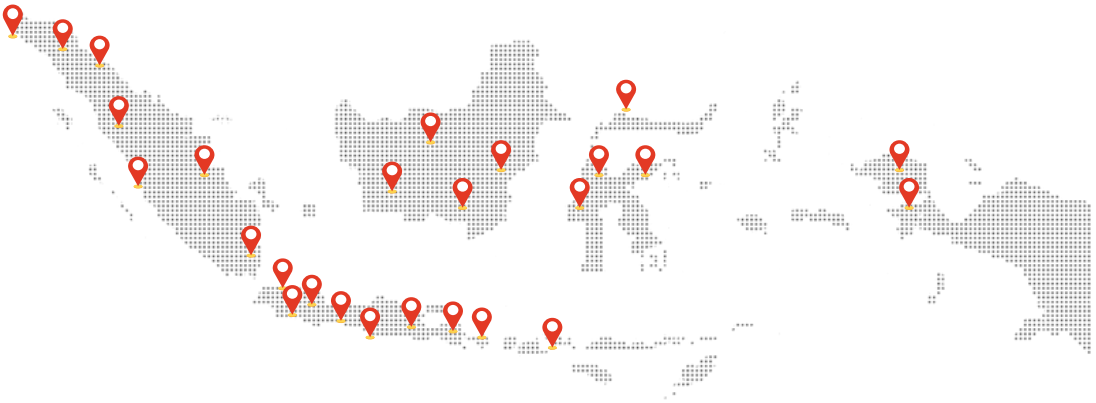

Long-Term Partnership

We prioritize building long-term business relationships.
